## Work experience

### ● HTML DEVELOPER

From January 2019 to November 2021 CLOSURE GRAPHICS HARARE

- **HTML Markup Creation:** Writing clean, well-structured, and semantically meaningful HTML code to define the structure and layout of web pages.
- **CSS Styling:** Applying CSS (Cascading Style Sheets) to the HTML markup to control the presentation and appearance of the website, ensuring it is visually appealing and consistent across different devices and browsers.
- **Responsive Design:** Developing responsive web pages that adapt and display correctly on various screen sizes, such as desktops, tablets, and mobile devices.
- **Cross-Browser Compatibility:** Ensuring that the website works and looks consistent across different web browsers like Chrome, Firefox, Safari, and Edge.
- **User Interface (UI) Implementation:** Integrating design mockups or wireframes provided by UI/UX designers into functional web pages.
- **Interactive Elements:** Implementing interactive features and functionalities using JavaScript and various JavaScript libraries or frameworks like ReactJS or jQuery.
- **Form Implementations:** Creating and handling HTML forms for user input and data submission.
- **Performance Optimization:** Optimizing the frontend code and assets (images, scripts, stylesheets) for improved page load speed and overall website performance.
- **Version Control:** Using version control systems like Git to manage code changes and collaborate with other developers.
- **Testing and Debugging:** Conducting testing and debugging of frontend elements to identify and resolve issues or bugs.
- **Collaboration:** Working closely with backend developers, UI/UX designers, and other team members to ensure seamless integration and efficient development workflow.
- **Maintaining Web Standards:** Staying updated with the latest web development trends, best practices, and web standards to ensure modern and future-proof web development.
- **Accessibility:** Ensuring that the website is accessible to users with disabilities, following accessibility guidelines and standards (e.g., WCAG).
- **Documentation:** Creating and maintaining documentation for frontend code, making it easier for other team members to understand and work with the codebase.
- **Continuous Learning:** Engaging in continuous learning to stay up-to-date with new technologies and tools in the frontend development landscape.

## Work experience

### FREELANCING

Since November 2022 **DUBAI** UNITED ARAB EMIRATES

- Collaborated with various clients to understand project requirements and deliver effective web solutions.
- Developed and maintained websites, ensuring responsiveness and cross-browser compatibility.
- Implemented client feedback and made necessary adjustments to improve the user experience.

## Projects

### E-commerce Website (ReactJS, Material UI)

Since October 2021 **Freelancing** DUBAI, UNITED ARAB EMIRATES

- Developed a responsive e-commerce website with ReactJS and Material UI.
  - Implemented product listing, shopping cart functionality, and user authentication.
  - Utilized Material UI components to enhance the user interface and overall user experience.
- **Personal Portfolio Website (HTML, CSS, JavaScript, Bootstrap)**
  - Created a personal portfolio website to showcase projects and skills.
  - Designed a mobile-friendly layout using Bootstrap for smooth navigation on different devices.
- **Task Management App (ReactJS, Node.js, Express, MySQL)**
  - Collaborated with a team to develop a task management application.
  - Implemented frontend using ReactJS and backend using Node.js and Express.
  - Utilized MySQL for database management and storing user tasks.
- **Weather App (ReactJS, API Integration)**
  - Developed a weather application using ReactJS to display real-time weather information.
  - Integrated a third-party API to fetch weather data based on user location.
